Purpose

The purpose of the Requisition Accounting Distribution Table is to provide the ability to add, change, or delete an accounting distribution record. This record provides the interface with the accounting system to allow for pre-encumbrance of funds in the accounting system. The action code input identifies the type of transaction that is processed in the accounting system. This pre-encumbrance record later becomes the source for encumbrance of funds to support an order.

Chapter 2 Requisition Processing;

- 3.1 Add Requisition Accounting Distribution Table
- 3.2 Change Requisition Accounting Distribution Table
- 3.3 Delete Requisition Accounting Distribution Table
- 3.4 Inquire Requisition Accounting Distribution Table

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Date	8	Protected. Maintained by system. Current date.
Time	8	Protected. Maintained by system. Current time.
Term	8	Protected. Maintained by system. Terminal ID logged on to transaction.
Requisition Number	10	Unprotected. Key. Required. the requisition number for which the accounting record is to be added, changed, or deleted.
Requisition Title	40	Protected. The title of the requisition number input as provided from the RQSN Table.
Account Dist Number	2	Unprotected. Key. Required. A sequential number as specified by the user to indicate a line of accounting distribution.
Change Number	2	Unprotected. Key. Required. A sequential number as specified by the user to indicate the next change to a line number previously input. For an initial creation of a line number, the change number must be '00'. For action code other than 'C', the change number must be greater than '00'.
FY	2	Protected. Displayed fiscal year of the entered requisition number.
Paying Agency	6	Unprotected. Required. Indicates the agency number to be used as the "paying agency" for pre-encumbrance processing to accounting. If left blank, will default requisitioning agency from the RQSN Table. If requisitioning agency reports to FACS, the paying agency must equal the first three positions of the requisitioning agency.
Paying Agency Title	35	Protected. The title of the paying agency number input as provided from the AGCY Table.
Status Code	1	Unprotected. Required. A status code of '0' is used to add a new record. When satisfied with the record it can be changed to '1' for ready to process to accounting. Other status codes are generally generated by the system as a result of processing. System edits prevent status code '1' on multiple records for the same accounting line for the same requisition simultaneously.
Status Code Title	30	Protected. An interpretation of the status code from BTAB Table RG (Accounting Status Code).

REQUISITION PROCESSING

DOCUMENTS

RACG: Requisition Accounting Distribution Table

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Status Change Date	8	Protected. The date the status code was last changed,
Dt Sent To Actg	8	Protected. Date this record was processed to accounting.
At (Accounting Sys)	5	Protected. Maintained by the system. Identifies the accounting system (GFS) that the record was last in interface with.
Action Code	1	Unprotected. Required. Must be a valid code in BTAB Table AC (Action Code).
Action Code Title	30	Protected. An interpretation of the action code from BTAB Table AC.
Amount	9.2	Unprotected. Required when 'change number' is greater than '00'. System will default to total estimated amount for From/To line range when change number is '00'. When processing a change action if 'increase (I)' or 'reduce (R)' the line amount will be the action amount and must be entered by the user.
From Line	5	Unprotected. Required for line accounting distribution. User will input the beginning requisition line number.
To Line	5	Unprotected. Required for line accounting distribution. User will input the ending requisition line number.
GFS Batch #	6	Protected. System assigned GFS Batch Number.
Chg Pre-Enc	(s)9.2	Protected. Line amount of RACG change displayed on the base record RACG (Change Number = '00') when a change is processed.
Net Pre-Enc	(s)9.2	Protected. Calculated by the system; Original Pre-Encumbrance + Change Pre-Encumbrance.
Awarded	(s)9.2	Protected. Display of the amount awarded against this pre-encumbrance.
Actg Dist Field Labels	10x10	Protected. Interpreted labels from the BLBL Accounting Labels Table. Key to BLBL record is Department Financial of the Bill-To-Agency of the RACG record. If Key is not found, the labels will default to 'CNTRL' format of BLBL Table.
Dist Data Entry Fld 1-8	8x8	Unprotected. Entry may be made only if the field has a label. User will enter data as indicated by the field label, or may be defaulted from AACG.
Dist Data Entry Fld 9	15	Unprotected. Entry may be made only if the field has a label. User will enter data as indicated by the field label, or may be defaulted from AACG.

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Dist Data Entry Fld 10	20	Unprotected. Entry may be made only if the field has a label. User will enter data as indicated by the field label, or may be defaulted from AACG.
Reason Codes (1-4)	4x6	Protected. Maintained by the system. If interface with accounting results in 'failed accounting process', the reason codes for failure are displayed.
Reason Code Title	4x30	Protected. Interpreted title of the reason code from BTAB Table RE (Reason Code).
Userid Last Change	8	Protected. The USERID of the person making the last change to the record.
Date Last Changed	8	Protected. The date the last change was made.

Total Award Amt	9.2	Protected. Total awarded amount(s) of RVEN records with award flag = 'Y' that relate to this RLIN.
Tax Amount	9.2	Protected. If applicable, this field represents the total tax amount.
Sample Req'd	1	Unprotected. If left blank, system will default to 'N'. If entered, must be 'Y' or 'N'.
Grouping Ind	2	Unprotected. May be left blank. Grouping indicator is determined by the user and may be any code assigned to a group of common commodities for purposes of bid tabulation and evaluation as a group.
Desc Literature Req'd	1	Unprotected. If left blank, system will default to 'N'. If entered, must be 'Y' or 'N'.
Awd Cont/ Order No	10	Protected. Order automatically displayed by the system as a result of the contract or order award process.

REQUISITION PROCESSING

DOCUMENTS

RLI3: Requisition Line Table #3

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Line No	5	Protected. The line number of the contract or order for this requisition line item.
Vendor No	9	Protected. The vendor number to which the contract or order was awarded.
Vendor Name	30	Protected. The name of the vendor as provided from the Vendor file.
Alternate Bid Code	2	Protected. The alternate bid code submitted by the vendor if any.
Award Date	8	Protected. The date the contract or order was awarded for this requisition line.
Movable Property Flag	1	Unprotected. Must be 'Y' or 'N'. Can only be maintained before pre-encumbrance. Can only be changed to 'N' by authorized user (in BAAT), when the requisition line amount is equal or greater than the movable property threshold amount in BINS. If left blank, will default based on the movable property indicator from the COMM record and the movable property value from the BINS Table.
Movable Prop. RCD in Progress	1	Protected. The number of movable property records in progress.
In Progress Awarded	1	Protected. The number of movable property records in progress awarded.
User ID Last Change	8	Protected. The user ID of the person making the last change to this record.
Date Last Changed	8	Protected. The date this record was last changed.

Purpose

The purpose of the Requisition Header Table #3 is to provide the user with the ability to change selected fields associated with the requisition header record. This screen is used primarily by the purchasing agency to produce and maintain a requisition processing schedule. Security is based on the purchasing agency and access is granted only to those requisitions for which the user has security access.

11.1 Supervisor Review
11.2 Buyer Review

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Date	8	Protected. Maintained by system. Current date.
Time	8	Protected. Maintained by system. Current time.
Term	8	Protected. Maintained by system. Terminal ID logged on to transaction.
Requisition Number	10	Unprotected. Key. Required. The requisition number to which a change will be made. If left blank on inquiry, the system will return the first requisition number in the database.
Title 1	40	Protected. The first title line of the requisition as provided from the Requisition table.
Status Code	3	Unprotected. Required. If status code is changed it can only be changed to 235 for scheduling. Once the schedule has been set, no more changes to the schedule will be allowed. Revisions to schedule dates may be made without changing the status code.
Status Code Title	30	Protected. An interpretation of the status code from BTAB Table SR (Status Code - Requisition).
Status Change Date	8	Protected. The date the status code was last changed.
User ID Lst Chg	8	Protected. The user ID of the person making the last change.
Date Last Chg	8	Protected. The date the last change was made.
Document Type	3	Protected. Specifies the type document being processed as provided from the Requisition table.
Document Type Title	30	Protected. An interpretation of the document type code from BTAB Table DR (Document Type - Requisition).
Nature of Purchase	2	Unprotected. Required for scheduling status code 235. Describes the purchase in terms of commodity, service or other and whether it is simple, routine, or complex. Used by the system to determine the standard number of days to apply to the schedule.

REQUISITION PROCESSING

DOCUMENTS

RQS3: Requisition Header Table #3

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Nature of Purchase Title	30	Protected. An interpretation of the nature of purchase code from BTAB Table NP (Nature of Purchase).
Priority Code	1	Unprotected. Required for scheduling status code 235. Describes the priority to be applied to processing the requisition. Used by the system to adjust the standard number of days for scheduling.
Priority Code Title	30	Protected. An interpretation of the priority code from BTAB Table PI (Priority Code).
Deg Of Difficulty	1.1	Unprotected. Required for scheduling status code 235. Used as a multiplication factor to the standard number of days for scheduling. Values greater than one will increase the number of days and values less the one will decrease the number of days.
Assign to Buyer - Schedule	8	Protected. Schedule automatically calculated by the system based on Nature of Purchase, Priority, and Degree of Difficulty.
Assign to Buyer - Revised	8	Unprotected. Optional. May be used to adjust the schedule once the schedule has been set.
Assign to Buyer - Actual	8	Protected. Automatically displayed by system Actual when buyer code is actually assigned.
Assign to Buyer - Variance	4	Protected. Automatically calculated by the system as the difference between the scheduled (or revised) date and the actual date.
Assign Solicitation - Schedule	8	Protected. Automatically calculated by the system based on Nature of Purchase, Priority, and Degree of Difficulty.
Assign Solicitation - Revised	8	Unprotected. Optional. May be used to adjust the schedule once the schedule has been set.
Assign Solicitation - Actual	8	Protected. Automatically displayed by system when solicitation is actually assigned.

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Assign Solicitation - Variance	4	Protected. Automatically calculated by the system as the difference between the scheduled (or revised) date and the actual date.
Issue Bid - Schedule	8	Protected. Automatically calculated by the system based on Nature of Purchase, Priority, and Degree of Difficulty during the Solicitation scheduling phase.
Issue Bid - Revised	8	Protected. Displays revised issue bid date Revised (if any) after the requisition has been through the Solicitation scheduling phase.
Issue Bid – Actual	8	Protected. Automatically displayed by system when bid issue is actually assigned.
Issue Bid - Variance	4	Protected. Automatically calculated by the system as the difference between the scheduled (or revised) date and the actual date.
Open Bid Date - Schedule	8	Protected. Automatically calculated by the system based on Nature of Purchase, Priority, and Degree of Difficulty during the Solicitation scheduling phase.
Open Bid Date - Revised	8	Protected. Displays revised open bid date Revised (if any) after the requisition has been through the Solicitation scheduling phase.
Open Bid Date - Actual	8	Protected. Automatically displayed by the system when open bid date is actually assigned.
Open Bid Date- Variance	4	Protected. Automatically calculated by the system as the difference between the scheduled (or revised) date and the actual date.
Open Bid Time - Schedule	8	Protected. Automatically displayed by the system after the requisition has been through the Solicitation scheduling phase.
Open Bid Time - Revised	8	Protected. Displays revised open bid time Revised (if any) after the requisition has been through the Solicitation scheduling phase.
Open Bid Time - Actual	8	Protected. Automatically displayed by the system when open bid time is actually assigned.

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Begin Evaluation - Schedule	8	Protected. Automatically calculated by the system based on Nature of Purchase, Priority, and Degree of Difficulty during the Solicitation scheduling phase.
Begin Evaluation - Revised	8	Protected. Displays revised begin evaluation (if any) after the requisition has been through the Solicitation scheduling phase.
Begin Evaluation - Actual	8	Protected. Automatically displayed by the system when begin evaluation has actually been assigned.
Begin Evaluation - Variance	4	Protected. Automatically calculated by the system as the difference between the scheduled (or revised) date and the actual date.
Award – Schedule	8	Protected. Automatically calculated by the system based on Nature of Purchase, Priority, and Degree of Difficulty during the Solicitation scheduling phase.
Award - Revised	8	Protected. Displays revised award date (if any) after the requisition has been through the Solicitation scheduling phase.
Award - Actual	8	Protected. Automatically displayed by system when award date has actually been assigned.
Award - Variance	4	Protected. Automatically calculated by the system as the difference between the scheduled (or revised) date and the actual date.
Cause Code	3	Unprotected. Optional. May be left blank. Used to describe the reason for being behind or ahead of schedule.
Cause Code Title	30	Protected. An interpretation of the cause code from BTAB Table CU (Cause Code).
# Days Ahead/Behind	3	Protected. Calculated by the system as the sum of all variances displayed.
No PO/Contracts Created	4	Protected. Display of the number of purchase orders or contracts resulting from this requisition.

Purpose

The purpose of the Requisition Header Table #4 is to provide the user with the ability to add or change requisition header information. The primary function of RQS4 is to add new requisitions to the system by the user. This screen may also be used to monitor the status of requisitions under the control of the user to move them along through the requisition processing cycle. Security is based on the requisitioning and purchasing agencies and access is granted only to those requisitions for which the user has security access.

Term	8	Protected. Maintained by system. Terminal ID logged on to transaction.
Requisition Number	10	Unprotected. Key. Required. If adding a new requisition then number must be 'NEXT'. If left blank on inquiry, the system will return the first requisition number in the database.
File Number	8	Protected. The file number from the RQS2 record.
Warehouse Code	4	Protected. The Warehouse Code from the inventory system.
FY	2	Unprotected. Required on add. Specifies the budget fiscal year to which funds will be allocated for this requisition.
Agcy Req No	10	Unprotected. Optional. Entered at the users discretion in any format desired for an agency requisition number.
Title Line 1	40	Unprotected. Required. Should be used to describe the general nature of the requisition.
Title Line 2	40	Unprotected. Optional. May be left blank. Used when title exceeds 40 characters of title line 1 or at the discretion of the user.
Status Code	3	Unprotected. Required. If left blank on add, system will default to 100. Status code must be changed to allow further processing of the requisition through the system.
Status Code Title	30	Protected. An interpretation of the status code from BTAB Table SR (Status Code - Requisition).
(Status) Chg Dt	8	Protected. The date the status code was changed.
Document Type	3	Unprotected. Required. Must be valid for procurement obligation code combinations.
Document Type Title	30	Protected. An interpretation of the document type from BTAB Table DR (Document Type - Requisition).

REQUISITION PROCESSING

DOCUMENTS

RQS4: Requisition Header Table #4

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Acct Rqd	1	Unprotected. Valid entries are Y or N. Default is Y. Used to indicate whether or not a requisition is required to be encumbered in accounting.
Purchasing Agcy	6	Unprotected. Required entry. The agency number of the agency performing the purchase function for the requisitioning agency.
Purchasing Agency Name	35	Protected. The agency name as provided from Name the Agency table.
Requisitioning Agcy	6	Unprotected. Required. The agency number for which this requisition is being created.
Requisitioning Agency Name	35	Protected. The name of the requisitioning agency as provided from Agency table.
Bill-To Contact	35	Unprotected. Not Required. Name of contact person for the requisition.
Bill-To Phone	14	Unprotected. Not Required. Phone number of contact person. Includes area code, exchange, number, and extension.
Class/Sub-Class	5	Unprotected. Not required. Will use the first line (RLI2) created for this requisition. The primary class/sub-class of the requisition. By specifying the class/sub-class here at the header level does not limit the user to only this class/sub-class at the line level.
Ship-To Agcy	6	Unprotected. Required. The delivery agency to which the requisition items will be delivered. If delivery will be to multiple agencies then Group Code or Region Code may be more appropriate.
Ship-To Sub(-Agency)	6	Unprotected. The delivery sub-agency number to which the requisition items will be delivered. If delivery agency is a Group or Region then this field must be blank.
Ship-To Agency/Sub-Agency Name	35	Protected. The name of the delivery agency as provided from the Agency table.
Bill To - Agcy	6	Unprotected. Required for documents other than contract initiation requests. The agency to which the invoice is to be sent.
Bill To - Sub(-Agency)	6	Unprotected. Required for documents other than contract initiation requests. The sub-agency number to which the invoice is to be sent.

Field Completion

<u>Field</u>	<u>Size</u>	<u>Description</u>
Bill To - Agency/Sub-Agency Name	35	Protected. The name of the Bill To agency as provided from the Agency table.
Delivery Days ARO	3	Unprotected. Optional. The number of days after receipt of order that the vendor should deliver requested items. If Delivery Weeks ARO or Delivery Date is specified then this field should be blank.
Weeks ARO	3	Unprotected. Optional. The number of weeks after receipt of order that the vendor should deliver requested items. If Delivery Days ARO or Delivery Date is specified then this field should be blank.
Date	8	Unprotected. Optional. The date the vendor should deliver requested items. If Delivery Days ARO or Delivery Weeks ARO are specified then this field should be blank.
Ship-To Contact	35	Unprotected. Optional. Name or point of contact for delivery.
Ship-To Phone	14	Unprotected. Optional. Phone number of the delivery contact. Includes area code, exchange, number, and extension.
EnterID	8	Protected. User ID of person making input.
Date	8	Protected. Date the input was created.
Set-Aside Code	2	Unprotected. Optional. If the requisition has a requisition line with a designated Set-Aside code present on the CASA table(commodity by agency set-aside), it will be displayed on RQS4 and cannot be changed. If the requisition has no requisition lines with a designated Set-Aside present on CASA, then the Set-Aside code can be changed.
Resp Orgn	4	Protected. The organization responsible for a stock replenishment request.
BS Acct	4	Protected. The balance sheet account number for a stock replenishment request.
Whim	1	Unprotected. Optional entry. Used to indicate if this record may require an approval not covered by any prior approval. Entry must be P (purchasing agency) or R (requisition agency).
Pre-Enc Stat	1	Protected. Display of the requisition pre-encumbrance status from the RQSN header record.
Del Bldg/Rm	10	Protected. The Warehouse deliver to building and room number for stock replenishment requests.
